When you choose a primary care physician (PCP), you are also choosing the PCP's affiliated medical group. Your PCP refers you, as needed, for specialty care, X-ray, laboratory and other services. Many covered services, including visits to a specialist, require a referral or prior authorization from your medical group. Your PCP will refer you in-network for most services. If services aren't available, your PCP will refer you for out-of-network services and will request authorizations when necessary.
